

ET 2460

HEAT ASSURE MULTI FUNCTIONAL FUEL OIL ADDITIVE

ET 2460 HEAT ASSURE MULTI FUNCTIONAL FUEL OIL ADDITIVE is a concentrated formula designed to meet the fuel quality needs of the NEFI Providence Resolution, where upcoming regulatory changes are likely to place higher bio and renewable fuel requirements on the heating oil industry. **HEAT ASSURE** contains a combination of chemistries designed to optimize the performance of heating oils. **HEAT ASSURE** contains stabilizer, detergent, water dispersant, metal deactivators, and corrosion inhibitors. **HEAT ASSURE's** stabilizer will reduce the incidence of harmful peroxides. Added detergent helps prevent the formation of nozzle and filter deposits, allowing systems to function better. As a result, **HEAT ASSURE** is effective when used with bio-blends and neat ULSHO. **HEAT ASSURE** is fully compatible with all ULSHO and biofuel blends.

The continued use of **HEAT ASSURE** can help optimize heating oil system performance and reduce the chance of 'no heat' calls in the winter.

Formulated for Ultra Low Sulfur Heating Oil Fuels & Biofuels

USER BENEFITS

- Increases filter and nozzle life
- Results in less down time and maintenance expenses
- Protects tanks
- Reduces no heat calls
- Effective and compatible with ULSHO, neat biofuel, and bio-blends
- Detergent helps keep nozzles and filters clean and deposit free
- Disperses insoluble gums and sediment, increasing filter and component life
- Contains fuel stabilizer to extend the storage life of fuels.
- Metal deactivator protects system from copper catalyst degradation that produces sludge and harmful sediment
- Contains corrosion inhibitor to prevent pitting and corrosion of ferrous metals
- Incorporates a state-of-the-art moisture control to protect tanks and fuel systems from corrosion and water related issues

TREATMENT RATIO

1:7,500 Blend Ratio

For optimization of heating systems

Compatible with ULSHO, biofuel, and blended fuels

CONTAINER SIZES

- 275-Gallon Totes
- 55-Gallon Drums
- Cases of 2.5g jugs (two jugs per case)

THIS PRODUCT DOES NOT CONTAIN ALCOHOL
